# FEATURES

## ACRYLIC CONSTRUCTION

All PROFLO baths are constructed of professional grade acrylic

## HIGH-FLOW ADJUSTABLE JETS

Color matched, high-flow adjustable 1/4 turn jets are standard on all PROFLO whirlpool baths. You can adjust the power and flow of each individual jet to control the intensity of the massage.

## POWERFUL PUMP MOTORS

A high efficiency motor is standard on all PROFLO whirlpool baths. The pump motor is pre-wired and pre-plumbed for simple plug-in installation. Requires a single 115V/20 amp GFCI circuit.

## SAFETY SUCTION TRIM COVER

This strainer prevents foreign objects from entering the whirlpool system.

## FACTORY INSTALLED HEATER BLANK

This factory installed heater blank allows for fast and easy field installation of an in-line heater.

## REMOVABLE ACCESS PANEL

Removable access panel, only applicable for whirlpool skirted models

## TILE FLANGE KITS

Optional tile flange kits for drop in models  
PFTLK - Tile flange kit for rectangle and oval baths  
PFTLKC - Tile flange kit for corner baths

## WATER TESTED PLUMBING

Each joint is solvent welded, clamped and water tested prior to delivery for long-term reliability.

## ON/OFF SWITCH

The low-profile air switch

PFWPLUSA6036  
PFS6036A  
PFWPLUSA6032  
PFS6032A

- Available as whirlpool or soaking tub
- Available in white or biscuit
- Textured, slip-resistant bottom
- Safety suction and silent air induction

## SKIRTED TUBS

### PROFLO SKIRTED BATH COLLECTION

The PROFLO skirted bath collection features spacious bathing wells with textured, slip-resistance bottoms for safety, and softly sculpted edges for luxury and sophistication. These fashionable baths are very competitive with standard gelcoat baths and the integral molded skirt eliminates the need for tiling or other carpentry work.

### GENERAL SPECIFICATIONS 6060

- 60" length
- 60" width
- 21" height
- 60 gallon operating capacity
- 94 gallon total capacity to overflow
- 8 jets
- Left-hand pump
- Standard removable access panel on front of skirt only

NOTE: All dimensions and specifications are nominal and may vary  $\pm 1/4"$ . Use actual products for accuracy in critical situations. All whirlpools require a single 115V/20 amp GFCI circuit.
