

# FastFit Supply Stops

PROFLO now offers supply stops with push connection technology under the sub brand of FastFit. FastFit stops are a quick and easy way to install a toilet or lavatory with copper, CPVC, or PEX pipe. With soldering, crimping, or glue needed, just insert the valve onto the pipe and the stainless steel teeth bite down and grip the valve onto the pipe. Available in both angle and straight configurations with 3 different finishes (Chrome, Oil Rubbed Bronze & Brushed Nickel).

## Features & Benefits

- Quick & easy installation
- Smooth Quarter Turn operation
- Works with Copper, Pex and CPVC pipe
- Includes tube stiffener to help self-aligns with the tubing
- Available in both angle and straight configurations
- No glue or soldering needed
- May be removed and re-used
- Brass body
- Labor & time savings
- Great for fixing a leaking valve
- Low lead compliant
- cUPC approved & NSF certified
- Temperature range: 40°F - 160°F
- Max pressure: 125 psi
