

FEATURED PRODUCT

Major Time and Energy Savings

- Easier to install – includes adjustable mounting bracket, easy parameter adjustments, and flexible venting
- Easy to service – clean, sleek design allows for any part to be accessed in minutes
- Operational excellence – all major components manufactured by Rinnai to ensure Rinnai quality

Condensing Technology for Colder Climates

- The Rinnai SENSEI offers freeze protection down to -4° F (for outdoor units) or -22° F (for indoor units) through:
- **NEW** integrated check valve that prevents backflow from outside cold air
- **NEW** Fiber Mesh Premix Burner
- Integrated logic to temporarily activate the unit in extreme cold climates

Most Flexible Venting in the Industry

- 2" PVC on up to 65' vent runs
- 3" X 5" or 2" X 4" concentric
- Approved for 14 possible vent configurations and 9 compatible vent manufacturers*

*Includes PVC
