OUR BRAND

FNW traces its roots to Familian Northwest, established in Portland, Oregon in 1969. In the late ’70s, some industrious sales associates, responding to a demand from the pulp and paper industry, developed the first all-cast stainless steel knife gate valve in the country. The FNW brand was established in 1979, on the foundation of that valve product.

Since these beginnings, customer demand required that FNW expand into other products such as ball, butterfly, gate, globe and check valves. Even today, we continue to add additional products to our offering such as flexible connectors, gauges and hangers.

FNW is made to expected industry standards. We continually inspect and test our products to insure customers are provided with superior products that add value to any project.
1  QUALITY
FNW products are held to a high standard of quality and meet or exceed all applicable specifications.

2  DIVERSIFICATION
FNW offers a diversified product portfolio, including a variety of specialized and everyday products such as valves, hangers, piping products and more.

3  CONSISTENCY
FNW is proud to offer an extensive selection of high-quality products that customers around the world count on each and every day.

4  TRUST
For five decades, FNW has provided customers like yourself with dependable products. Every product we create is done so with the trust of our customers in mind.
VALVES
- FNW offers ball, butterfly (high-performance/resilient seated), gate, globe, check, knife gate, strainers and thermoplastic valves
- Available in threaded/sweat, flanged, press and push-fit end connections
- Offered in various sizes, materials and pressure classes
- Suitable for a wide range of applications

ACTUATION & ACCESSORIES
- Provide power and precision
- FNW offers pneumatic, electric and solenoid actuators
- Accessories include valve positioners and limit switches

PIPING PRODUCTS
- FNW piping products help maintain secure and accurate connections and measurements to increase accuracy of installation
- Consists of gauges, thermometers, flex connectors, water hammer arrestors, DI back-up flanges, flange gaskets, nut/bolt/gasket kits, bolt kits and isolators
HANGERS, CLAMPS & ACCESSORIES
- FNW offers a wide variety of hangers to suit every application
- Plated, plain or stainless steel finishes
- Meets MSS-SP specifications
- Many FNW hangers and clamps feature epoxy plating which reduces corrosion and pitting
- Designed for metric pipe application as well as iron pipe sizes

FITTINGS
- Cam & Groove – available in aluminum, brass and stainless steel materials
- FNW offers high-quality male groove adapters and female couplers in multiple sizes for a simple, fast option of connecting pipe, tubing or hose
- FNW sanitary stainless steel fittings are 3A certified and used on a variety of installations where piping can easily be cleaned (CIP), available in both clamp and weld connections in 304 and 316L sizes

FASTENERS
- Consists of nuts, washers, bolts and screws
- Available in a wide array of sizes
- Options when working with varying materials including drywall, wood and metal, among others
FNW's extensive product offering provides high quality and reliability for a variety of applications in Commercial, Industrial, Residential, Fire and Fabrication and HVAC.
